*Deadline: February 1, 2018*

The Wave Farm Residency Program provides artists with a valuable opportunity to concentrate on new transmission works and conduct research about the genre using the Wave Farm Study Center resource library. Employing the electromagnetic spectrum, Transmission Art encompasses work in participatory live art or time-based art such as radio, video, light, installation, and performance, as well as a multiplicity of other practices and media, informed by an intentional use of space (often the airwaves). In conjunction with their residencies, artists perform, are interviewed, and create playlists for broadcast on Wave Farm's WGXC 90.7-FM, a creative community radio station serving over 78,000 potential listeners in New York's Upper Hudson Valley, and international listeners online.
